SOCIAL SCIENCE & MEDICINE

an international journal

LIST OF CONTENTS and AUTHOR INDEX

VOLUME 9, 1975

Dear Reader:

I am pleased to bring to your notice the aims and scope, table of contents and author index of recent issues of this journal together with an invitation to consider submitting, for editorial consideration, suitable manuscripts for the journal. I hope very much that you will be good enough to examine this material and, where necessary (perhaps in consultation with your colleagues) that you will decide to recommend the purchase of a subscription to the journal by your main or departmental library.

If the library in your organization is either a subscriber already or becomes a subscriber then you or your colleagues who may be interested can obtain a personal subscription at a reduced rate.

On the back pages you will also find information about some important reference works, text books and other journals published by Pergamon Press, some of which we hope you will find of interest.

I should welcome suggestions for the publication of new text and reference books, proceedings of timely and important conferences or the commissioning of review articles that may be needed by yourself or colleagues working in your own speciality.

Thank you in advance for your kind consideration for these matters.

Robert Maxwell

Aims and Scope

Social Science & Medicine was established to aid the dissemination of important research and theoretical work in all areas of common interest to the socio-behavioral sciences and medicine, including psychiatry and epidemiology. The Editors and the Publisher hope to encourage the exchange of ideas and information throughout the world among those engaged in different disciplines who are focusing their attention on aspects of the inter-relationships between the various branches of medicine and the social sciences. Papers will be published covering all those aspects of anthropology, economics, education, psychology, social work and sociology which directly relate to any of the problems of mental and physical health, and all those aspects of medicine, including epidemiology, medical education and practice, psychiatry, public health and nursing which directly relate to any of the social sciences. The Editors invite for editorial review and rapid publication original reports of systematic studies and research in which at least one variable is concerned with medicine or medical education. They are equally interested in receiving significant and relevant theoretical contributions.

Additional features will include: book reviews, proceedings of symposia, monograph supplements, details of research (planned and in progress), correspondence, and new developments in medical education.

Information for contributors

Manuscripts for review (including long research reports) should be sent directly to the Editor-in-Chief or to the most proximal Regional Editor and will be published within six months (or less) of acceptance. Shorter communications which describe present and planned research, announcements and information regarding new developments in medical education should be sent to Professor Fox. Books for review should be sent to Dr. Stoeckle. Inquiries regarding the publication of symposia should be sent to the Editor-in-Chief.

Style of Manuscript

General Form: Manuscripts should be written on one side of the paper only, with double spacing and liberal margins. Manuscripts should be submitted *in duplicate*, i.e. an original and one carbon copy. The title of the paper and the author's name and address should be given on a covering sheet. The manuscript and diagrams will be discarded one month after publication unless the publisher is requested to return the original material to the author.

Abstract: A short abstract (not exceeding 400 words) must accompany the manuscript on a separate sheet.

References: References should be cited in the text as consecutive, bracketed numerals and the list placed at the end of the article (not as footnotes on each page) in numerical sequence. The list should include the author's last name, initials, title of article in the original language, name of periodical abbreviated in the style of the *World List of Scientific Periodicals* (4th Edition), with volume, page and year. For example:

1. Proshansky H. M., Ittelson W. and Rivlin L. G. Freedom of choice and behavior in a physical setting. In *Environmental Psychology: Man and His Physical Setting* (Edited by Proshaksky H. M. *et al.*) p. 127. Holt, Rinehart & Winston, New York, 1970.

2. Willie C. V. The social class of patients that public health nurses prefer to serve. *Am. J. publ. Hlth* **50,** 1126, 1960.

Should the author be uncertain of the acceptable abbreviation he should quote the Publication name in full in the order and manner shown above in (2).

Illustrations: Illustrations and tables accompanying manuscripts should be numbered, provided with suitable legends, and marked lightly on the back with the author's name. Figures and tables will now be reproduced directly by photo-offset methods. For guidance on how best to prepare figures and tables suitable for direct reproduction please consult the photoreprographic department of your institution which will give you assistance. Authors should indicate on the manuscript the appropriate positions of tables and text figures. A reasonable number of half-tone illustrations will be reproduced free of cost to the author, but special arrangements must be made with the Editor for color plates, elaborate tables, or extra illustrations. Copy for line blocks (such as pen drawings and charts) must be drawn and lettered in India ink, or black typewriter ribbon may be used for lettering. Should Greek letters or mathematical symbols be required in a table it is better, if you do not have the appropriate typewritter symbols, to indicate what is required in pencil in the margins rather than to write by hand onto copy which could otherwise be directly reproduced. Only good glossy photographic prints should be supplied for half-tone work; original drawings, not photographs of them, should accompany the manuscripts.

Publication Languages: English, French, German or Spanish.

Refereeing procedure

To ensure fairness, each manuscript will be assessed anonymously by at least two independent reviewers. Constructive criticism provided by the assessors will be forwarded to the author.

Reprints

Each author will receive with his galley proofs a reprint order form which should be completed and returned to the publisher with the proofs.

Some Pergamon journals, text and reference books of possible interest to readers of this journal

SOCIAL & BEHAVIORAL SCIENCES

PSYCHIATRIC DIAGNOSIS: A REVIEW OF RESEARCH

GEORGE FRANK, Department of Psychology, New York University, USA

A study of the heuristic value of psychiatric diagnosis - an attempt to determine what information is provided about the patient by a diagnostic statement, and whether it is complete. The method used is a thorough survey of the considerable amount of research literature on this subject. The exceptionally full bibliography is therefore one of the most notable features of this interesting and important book.

CONTENTS: I. The Diagnostic Principle. II. Methods. III. Psychiatric Reactions. IV. Schizophrenia. V. Depressive Reactions. VI. Neuroses. VII. Outcome. VIII. Beyond the Diagnostic Principle.

OF INTEREST TO: All medical clinicians, but particularly psychiatrists; psychologists; some fringe sociological interest.

International Series of Monographs in Experimental Psychology

FORCED LABOR: MATERNITY CARE IN THE UNITED STATES

NANCY STOLLER SHAW, Board of Community Studies, University of California at Santa Cruz, USA.

A critical examination of the routeing of women through maternity care systems in the United States. Explains the role of the medical and nursing professions and hospitals in structuring the birth process. Observes all aspects of hospital care from the pre-natal to post-partum stages, with emphasis on the biological, conceptual and social effects of the medicalization of childbirth.

CONTENTS: The Research Plan. The Cast of Characters. Pre-natal Care. Dehumanization and Drama: Giving Birth in the Hospital. The Post-partum Experience: Mother and Child. Conclusions. Personal Postscript. Glossary of Terms. Bibliography.

OF INTEREST TO: Students of nursing, public health, medical sociology, midwifery, obstetrics and gynecology, all involved in health care delivery, the interested layman, university, medical and public libraries.

OPERATION INTERCEPT: THE MULTIPLE CONSEQUENCES OF PUBLIC POLICY

LAWRENCE A. GOOBERMAN, Margaretville, New York, USA

A description and analysis of the factors leading to "Operation Intercept" – a closing of the Mexican border to halt the flow of marijuana from Mexico. The focus is on the increased incidents of multiple hard drug use, and the rapid proliferation of organized illegal drug distribution and sales during a critical period in American law enforcement history and in the making of public policy.

CONTENTS: THE POLICY AND THE RESEARCH PROBLEM. Operation Intercept: The Policy. Factors and Assumptions underlying the New Public Policy. Immediate, Intermediate and Ultimate Goals. Purpose of the Study, Applied Theoretical Perspectives and Hypotheses. Formulation of the Research Problem and Methodology. THE MULTIPLE CONSEQUENCES: The Availability of Marijuana during the Operation Intercept Era. Behavioral Reactions to the General Marijuana Shortage. Attitudinal Responses to the Government's Policy. ANALYSIS OF THE FINDINGS: PUBLIC POLICY AND THE DRUG ABUSE PROBLEM. The Findings. Additional Evidence Concerning the Unanticipated Consequences of Operation Intercept. The Social Context. PAST, PRESENT AND FUTURE. Appendices. Selected Bibliography.

OF INTEREST TO: Students in sociology, business, political science and drug abuse courses or seminars; the interested layman.

BEYOND DRUGS

STANLEY EINSTEIN, College of Medicine & Dentistry of New Jersey, Newark, New Jersey, USA.

Designed to help people understand the many issues and factors that are a part of today's drug scene. The major goal is to help both young and old to go beyond drug issues and drug problems and to challenge the reader to weigh the non-drug alternatives that already exist in his own life or are within reach.

CONTENTS: Critical Issues and Definitions. Drugs: What do They Do? Drug Users: Who Are They? Grim Fairy Tales. The Contemporary Drug Culture. What Do I Do, What Do I Say? Education and Prevention. Treatment: Who For? What For? Politics and Drug Use. Economic Aspects. Legal Control Efforts. Toward a People-oriented Life. Glossary. Drug Information Resources. Annotated Bibliography.

OF INTEREST TO: Youth workers, educators, criminologists, theologists, sociologists, parents, public officials, the concerned reader, public libraries.

The Underdevelopment of Health or The Health of Underdevelopment by VICENTE NAVARRO wins THE JOHN KOSA MEMORIAL PRIZE

The John Kosa Memorial Prize, presented by Pergamon Press in association with their journal SOCIAL SCIENCE AND MEDICINE for the best paper to be published internationally during 1975 on the social sciences, has been awarded this year to VICENTE NAVARRO of The Johns Hopkins University, Baltimore. Dr. Navarro's paper was entitled *The Underdevelopment of Health or The Health of Under-*

The
PERGAMON
INTERNATIONAL
LIBRARY of Science, Technology, Engineering & Social Studies

The 1000 volume original paperback library in aid of education, industrial training and the enjoyment of leisure.

- low priced student textbooks in all academic subjects
- low priced textbooks for craft and vocational courses
- low priced textbooks for industrial and commercial training
- specially commissioned in a carefully planned series for each subject
- written by authors in many countries to the highest possible academic standards for an international readership
- each book individually designed
- attractively and speedily produced by the most modern printing and binding techniques
- promoted and distributed internationally
- widely translated into other languages including German, Spanish, Italian, Japanese, etc.
- all books available for free inspection by teachers and lecturers wishing to consider them for course adoption

Please write to the Publisher at the most convenient address below for a complete catalogue or descriptive subject catalogues in your field of interest.

PERGAMON PRESS

Headington Hill Hall Oxford OX3 0BW England

THE PERGAMON TEXTBOOK INSPECTION COPY SERVICE

An inspection copy of any Pergamon International Library book suitable for use as a course text for undergraduate or graduate students will gladly be sent for consideration for adoption without obligation. Copies may be retained for a period of 60 days from receipt and returned if not suitable. When a particular title is adopted or recommended for adoption for class use and the recommendation results in a sale of 12 or more copies, the inspection copy may be retained with our compliments. If after examination the Lecturer decides that the book is not suitable for adoption but would like to retain it for his personal library, then our Educators' Discount of 10% is allowed on the invoiced price.
